

If you have found a notice resembling a shop receipt tucked under the windshield wiper or elsewhere on your car, you have quite likely forgotten to pay for your parking.

We understand that you didn't intend to do so, yet the local law gives us no option of releasing anyone from charging the fee.

Use the data from the notice you received, and pay PLN 150 to the special bank account indicated on the notice within seven (7) days. Don't forget to **indicate the number of the notice you found and the license plate number of your car** in your wire transfer.

Should you fail to comply, we will be forced to charge it from your account, irrespective of your place of residence or domicile.

If, however, you paid your parking fee and received this notice, please contact us by email at strefa@zdmk.krakow.pl, and we will see what happened. Contacting us will also let you know that what you hold is a real parking ticket, and not scam or a practical joke.
